Key achievements 2023-2024

This template will be completed at the end of the academic year and will showcase the key achievements schools have made with their Primary PE and sport premium spending.

Activity/Action	Impact	Comments
All year 5 and some year 4 children are offered swimming provision.	Children are more water confident. A greater number of children are on track to be able to swim 25m by the end of the key stage.	Challenges remain around the availability of local swimming pools to facilitate 180 children during a school year. Costs of hire continue to rise.
Increased provision at break and lunchtime to increase physical activity.	An increase in physical activity across lunchtime. Children playing and learning about playing in teams and being competitive. Fewer lunchtime behaviours incidents. MTA appointed to support.	
Develop a method for assessing PE standards.	PE Leads have worked collaboratively to create an assessment and shared ideas with SLT and other staff.	Foundation subject assessment forms part of the SDP and PE will feature during the year ahead.
Improve the provision of outdoor and adventurous activity.	A new orienteering course was bought and set up. All children using this regularly and built into the PE curriculum.	The resource is cross curricular and all children have used it through other subjects.
More children experience competitive sport and represent the school externally.	Children have represented the school in football, netball, dance, cricket and cross country	Increased transport and supply costs create a challenge to this action.
