

Nursery ~

Summer Term Curriculum

Personal, Social and Emotional Development

- Develop sense of responsibility and membership of community.
- Be increasingly independent at home and Nursery ~ brushing teeth, getting dressed etc.

Mathematics

- Confidently count one object at a time and link numerals with amounts.
- Make comparisons between different sea creatures relating to size, length and weight!

Communication and Language

- Enjoy listening to longer stories and remember what has happened.
- Continue to develop pronunciation and vocabulary linked to our project of sea creatures.

Literacy

- Recognise and say the first letter in their name.
- Communicate ideas and thoughts through shared writing activities, including our special journal books.

Understanding the World

- Plant flower seeds and broad beans for the garden.
- Discuss how to care for the natural environment and learn about sea creatures.

Physical Development

- Develop a comfortable grip when using pens and pencils, showing a preference for a dominant hand.
- Develop ball skills of catching, throwing and kicking.

Expressive Arts and Design

- Connect materials using a range of techniques and resources, reviewing and adapting where necessary.
- Develop drawing techniques, adding detail and movement.

Opportunities for Enrichment

- Explore the resources on the National Marine Aquarium website.
- Find out some facts about your favourite sea creature and maybe make your own book.
